Welcome to the TADS Financial Aid Application!

The TADS application for Financial Aid is designed to calculate your household's need, and then to recommend to schools and scholarship organizations the amount your household could be awarded. The timeline for completion of each phase varies for each applicant and school.

Phase 1: Fill out the online Financial Aid application form.

This form has 23 sections. For a preview of the online form, download the [Financial Aid Application Worksheet](#). You will receive a TADS Reference Number once the online form is submitted.

Phase 2: Upload required documentation to your application.

The required documentation varies by applicant, but TADS recommends having your most recently filed federal taxes, W2s, and paystubs close by.

Phase 3: TADS reviews your application.

TADS will audit your application to ensure accurate household need. This audit can result in a period of communication between you and one of our auditors.

Phase 4: The schools or scholarship organizations listed on your application review to determine aid.

This process and notification timeline looks different for each of our partner schools and scholarship organizations. Once your application is in completed status you can direct award questions to your school or scholarship organization.

Ready to Apply?

We are here to help at each phase of the financial aid application. Please click the green "Need Help?" button on the right of your screen to find frequently asked questions. You can [contact us](#) via email, chat or phone for assistance. Our support hours are 8:00 AM-6:00 PM CST Monday-Friday.
